Assembly, care and replacement parts

Follow the supplied assembly instructions and place the tree on a flat, dry surface. Check that all screws are tight before use and recheck them periodically.

Vacuum the plush with a soft brush attachment or spot-clean with a lightly damp cloth. Keep the tree dry and let cleaned areas air-dry completely before use.

For a replacement part or missing hardware, send the model, order reference, affected quantity and a photo of the part and its attachment point.
