Assembly, care and replacement parts

Follow the assembly guide for the supplied version. Place the tree on a level indoor floor, leave the condo entrances clear and follow any anchoring instructions provided with the unit.

Remove loose hair with a soft brush or vacuum upholstery attachment. Blot marks with a lightly damp cloth and let the fabric air dry. Avoid soaking the wood-based panels and rope.

For a replacement part or missing hardware, send the model, order reference, affected quantity and a photo of the part and its attachment point.
